

2014 Final Hg in Fish Tissue Sampling Plan		
<u>SITES</u>	<u>RATIONALE</u>	<u>SPECIES</u>
Big Montes Reservoir	Inconsistent data from previous sampling event	Rainbow trout
Currant Creek Reservoir	No historic data	Any
Deer Creek Reservoir	Need more current data for selected species	Rainbow trout and brown trout
E Fk Sevier R btw Otter Ck Reservoir and Piute Reservoir	Advisory >5 years old	Brown Trout
Gooseberry Reservoir	No historic data	Any
Grantsville Reservoir	No historic data	Any
Joes Valley Reservoir	Tiger trout data > 5 years	Tiger trout
Jordanelle Reservoir	Advisory >5 years old. All data > 5 years	Brown trout, smallmouth bass, yellow perch, rainbow trout
Kens Lake	Data > 5 years	Smallmouth bass and any other spp
Kolob Reservoir	Data > 5 years	Any
Lake Canyon Lake	No historic data	Any
Little Montes Reservoir	No historic data	Any
Millers Flat Reservoir	No historic data	Any
Moon Lake	No historic data	Any
Newcastle Reservoir	Hg remediation test	Rainbow trout; smallmouth bass; wiper
Red Fleet Reservoir	2012 data showed mean>0.3 but only had 1 fish; BLG data > 5 years	Brown trout, bluegill
Rock Ck below Upper Stillwater Reservoir	Advisory >5 years old	Brown trout
Starvation Reservoir	Address uncertainties from previous years data	Yellow Perch
Strawberry Reservoir	Data on certain spp >5 years old	Any
Upper Enterprise Reservoir	Hg remediation test	Rainbow trout; smallmouth bass
Utah Lake	Data >5 years old	Any
Weber River near Morgan	advisory >5 years old	Brown trout
Criteria		
Current advisory is >5 years old		
No advisory, but > 5 years since waterbody has been sampled		
Address uncertainties from previous years data		
No data exists for location and DWR will be netting there
